Gleichen Tennis Players Defeat Bassano Club 11-6

Visitors Play Strong Game on Bassano Courts

In a competition between members of the Bassano and Gleichen tennis clubs last Friday, Gleichen had a wide margin of points over Bassano, the visitors taking eleven sets, while the local players won only six.

The only Bassano players who came off victorious were the ladies, Misses Frances Lator and Mary Cathro, who paired to defeat Mrs. Baker and Mrs. Sather, of Gleichen, and W. J. Blinkestien and W. J. Smith, who paired off to win three sets without a loss. The game played was as follows:

Miss Lator and Miss Cathro of Bassano won from Mrs. Baker and Mrs. Sather of Gleichen, 6-3, 2-6, 6-4.
 Wm. McLaws and W. J. Redmond beat Lyons and Boyd of Gleichen, 6-4; lost to MacCallum and Baker 6-4, 1-6; and lost to Yates and Yates 4-6.

Blinkestien and Smith won from Yates and Yates, Gleichen, 6-4; won from MacCallum and Baker 6-2; and won from Boyd and Lyons 6-3.
 Keith and McVay 7-5 to Yates and Yates, Gleichen 4-6; lost to Boyd and Lyons 2-6; and lost to MacCallum and Baker, Gleichen, 1-6 and 3-6; lost to Yates and Yates 1-6; and lost to Boyd and Lyons 2-6.

Several sets of mixed doubles were also played. Miss Lator and Hogan lost to Mrs. Sather and Boyd, of Gleichen 4-6.

Miss Lator and Redmond defeated Miss Crawford of Gleichen and McLaws 4-6.

Mrs. Baker of Gleichen and W. J. Smith won from Miss Cathro and Holmes 8-7.

It was a splendid day for tennis, and the courts were in fairly good condition.

The games were finished up late in the evening, and about 8:15 the members of the Bassano club entertained the visitors to a chicken supper in Pat's restaurant.

New Wheat Crop Is Moving West

A steady stream of wheat has been flowing into the Bassano elevators all week. Both the Alberta Pacific and the Pool elevator are well equipped to handle the crop, and the grain is being loaded on the rails and shipped about as fast as it is being delivered by the farmers.

Ten carloads of wheat had been loaded and shipped by Wednesday night this week, all of it going west. Practically all wheat in the Bassano district is being shipped to Vancouver. A saving of four cents per hundred pounds is effected by shipping to Vancouver rather than the head of the lakes, as that amount is the difference in the freight rate to the two points.

C. P. R. Building New House For Roadmaster

A new house is being built on C. P. R. property just a few yards west of the railway station. The house will be occupied by A. E. Stewart, roadmaster here. It will be a modern residence, of about seven rooms and equipped with water pipes, sewer and electric light. J. H. Simmons & Co., Winnipeg, are the contractors.

COUNTRY SCHOOLS PREPARING FOR STARTING FALL TERM

A number of country schools in the vicinity of Bassano have engaged teachers in preparation for the opening of the full term early in September.

Clemenceau school, which was closed last term because of such a small number of pupils in the district, will be re-opened September 2nd, with Mrs. Martin, of Red Deer, as teacher.

Miss Price, of Calgary, has been engaged as teacher at Burn Brae school.

A. A. Gledits and Miss Paye Robinson who taught last term at Rosemary, have been re-engaged at that school for the coming term, and the school will be opened September 2nd.

Miss Jenny Barton, who taught at Countess last term, will return to that school next term.

Everything is in readiness for the re-opening of the Bassano school. The teaching staff, as announced some time ago, is the same as last year with the exception of Miss Irene Johnston, who will take the place of Miss Hilde Nelson.

Duchess News

DUCHESSE, Aug. 22.—Mr. Spiller returned Tuesday from a holiday spent in Vancouver.

Mrs. Smith and daughter, Miss Bertha Smith, who have been visiting at the home of Mr. Russell and family, returned on Tuesday to their home in Calgary.

Dave and Sylvester Miller, of Spokane, Washington, arrived Thursday for a visit at the home of their parents, Mr. and Mrs. P. Miller, and sister, Miss Mabel.

Miss Olga Hole left on a motor trip with Mr. and Mrs. Horn for a visit in Banff. Mr. and Mrs. Horn will go on to Edmonton for a two week holiday.

Quite a large crowd attended the sale held by Mr. Shaw on Monday, Aug. 19th. Mr. and Mrs. Shaw and Mr. and Mrs. Wintling for a visit with relatives before looking up a new location.

Mrs. Dunsmore spent Saturday with her son, Rob Dunsmore, and daughter, Miss Mabel. Mr. and Mrs. Towne, of Chico, California, who have been visiting at the home of their daughter, Mrs. Carl Sather, expect to leave for their home this morning. They are motoring through, and will stop at the home of Mr. and Mrs. T. Henry and Miss Playfair, of Calgary, upon the week-end at the home of their sister, Mrs. A. McKinnon.

Countess Merchant Painfully Injured

M. A. Anderson, postmaster and merchant at Countess, suffered a serious injury to his back while swimming in the irrigation canal near Countess last Sunday, August 18th. Mr. Anderson was going in for a dip in this favorite bathing place. Diving into the water he struck his head on the concrete, of which part of the canal is constructed. At this point, the blow was very painful, and nearly stunned him, but the injured man was able to swim to safety and clamber out of the water.

Mr. Anderson was hurried to the Bassano Hospital, and it was found necessary to put a number of stitches in his scalp to close the wound. The blow caused some injury to his neck, but the patient is now getting along nicely, and returned to his home on Wednesday.

C. P. R. CROP REPORT SHOWS HARVEST IN FULL SWING IN WEST

The crop report covering the prairie provinces issued early this week by the Canadian Pacific Railway company reads as follows:

Ideal harvest weather was experienced in the west during the past week, reports the Canadian Pacific Agricultural Department this morning. Light to heavy showers occurred in various parts and were welcome for late cereals and pasture, but were of no advantage where grain is ripe. Cutting of coarse grains has been in full swing almost everywhere during the week, and wheat is being cut in central and southern parts of the prairie, and will be general within a day or two with present weather conditions.

The frequent showers and cool nights appear to have benefited the crop, and while heads are small and inferior in many areas, grain and wheat is being cut in central and southern parts of the prairie, and will be general within a day or two with present weather conditions.

Several of our interested farmers attended the meeting held in the Countess Community Hall on Wednesday evening when A. B. Claypool, of the livestock pool, spoke on the value of co-operation, and also on other farm problems.

On Sunday evening, Aug. 18th, quite a large number of Gentiles attended the special service for young people. C. Hamer, of Duchesne, spoke to those present, and made a number of collections were given by visiting ladies. All the seats in the hall were occupied by an interested gathering.

On Sunday evening, Aug. 25th, and also on Sunday evening, Sept. 1st, special services will be held in the gymnasium at 8:00 o'clock when the Rev. Mr. of the Duchesne, will lecture, taking for his subject "The Two Greatest Persons in the World." Everybody is cordially invited to attend.

Robert Webber, whose home is with G. Deickman, has been in the Bassano Hospital since Friday suffering from a fractured leg. He is progressing favorably, and is expected home in a day or two.

Mr. and Mrs. Waterman made a trip to Rosemary on Sunday evening to pay Helen a visit.

The eye grove on the farm of C. Archibald is reported to be exceptionally good, weighing 60 pounds to the bushel, four pounds over the required weight. Well done, Clarence.

Our farm men are all busy either cutting, threshing, or hauling the grain to the elevators.

The eye grove on the farm of C. Archibald is reported to be exceptionally good, weighing 60 pounds to the bushel, four pounds over the required weight. Well done, Clarence.

Our farm men are all busy either cutting, threshing, or hauling the grain to the elevators.

Gem News

GEM, Aug. 21.—Pat Johnston, travelling representative for the Alberta Wheat Pool, was a dem visitor on Tuesday, calling on the Gem Elevator.

The first call of 1929 Gem wheat left here Wednesday for Vancouver. It was harvested by the Strathgairn & Deickman combine, and came from the farm of R. Selfridge.

P. Humble was appointed delegate from Gem and district to the pool livestock convention to be held in September.

A section foreman for the Gem railway is to be appointed in the near future.

On Sunday last Mr. and Mrs. Rumble and Mr. and Mrs. M. Atkins were on a motor trip to Medicine Hat and district.

Garden produce, to a large extent, is being spoiled in this district owing to a plague of small worms. These insects have destroyed much of the peas and beans in a large number of Gem gardens.

The many friends of Mrs. G. Deickman will be pleased to learn that she has taken a change for the better. We all had in heart of her steady improvement and a safe return to her family and home in Gem.

Mrs. Hughes, of Bindosa, is enjoying a few days' holidays with Mrs. Keeling.

Mr. and Mrs. A. P. Miller were week-end visitors to Mrs. E. Jones, of Waterville Hills.

Our local postmaster, M. Atkins, was on a motor trip to Calgary on Saturday last.

Mr. R. Small had the pleasure of a visit from Mrs. Ogilvie on Wednesday last. Mrs. Ogilvie was a business visitor from Calgary.

Misses Margaret and Mabel Douglas, who have been holidaying in the east with friends and relatives, are expected home this week-end.

Brother Sam, who has been visiting the trip east, and will return home with his sister.

Several of our interested farmers attended the meeting held in the Countess Community Hall on Wednesday evening when A. B. Claypool, of the livestock pool, spoke on the value of co-operation, and also on other farm problems.

On Sunday evening, Aug. 18th, quite a large number of Gentiles attended the special service for young people. C. Hamer, of Duchesne, spoke to those present, and made a number of collections were given by visiting ladies. All the seats in the hall were occupied by an interested gathering.

On Sunday evening, Aug. 25th, and also on Sunday evening, Sept. 1st, special services will be held in the gymnasium at 8:00 o'clock when the Rev. Mr. of the Duchesne, will lecture, taking for his subject "The Two Greatest Persons in the World." Everybody is cordially invited to attend.

Air Pioneers Make Progress With Plane

Long Delay Caused by Difficulty in Getting Motor

Dr. A. G. Scott and W. E. Hamby are making good steady progress with the building of their three-seater cabin monoplane.

Bassano's pioneer air men have had their "ship" under construction for the past few months, and with no further delays should have it completed and in the air some time this summer.

The greatest delay has been caused in getting the motor, which has not yet arrived. The motor, a Cameron of more than 100 horse power, was ordered many weeks ago. The factory has delayed shipment owing to shortage of parts, but was received this week that the motor is now on the testing block, and it is expected that it will be shipped within a few days.

Construction work on the fuselage and wings has reached an advanced stage, and little more remains to be done excepting putting the monoplane into a stage of parts, but one wing has yet to be covered with fabric, but this can be completed in a few days' time.

In the early stages of the construction of the "ship" Bill Bambrake had the assistance of an air mechanic from Calgary, but for the past couple of months he has been doing the work himself.

A few weeks ago the Dominion Government inspectors visited Bassano and looked over the "plane." They were surprised and pleased with the efficient design and high quality of workmanship on the "plane" and voiced their approval of the work.

The ship is a cabin monoplane, having a seat capacity of three persons (Bill says there is no room for a stowaway) and it is hoped, will develop a speed of more than one hundred miles an hour.

The "ship" rests on the floor in the front section of Bambrake's garage, but much of the work is being done in the building next door. Airplanes are now a common sight even in western cities, but outside of the cities planes are very uncommon, so the Scott-Bambrake machine arouses much interest, and no little curiosity among touring motorists who stop at the garage for gas and oil.

They gaze at the unfinished speed, walk around and examine the machine, and ask many questions of the owner and of Ward Simpson and Tommy Oiler the two garage mechanics. Some of these questions are very amusing.

One visitor wanted to know where the builders going to put a motor in the plane and several have asked "Will you please make me a model?" When the demonstrable wings are attached the ship has a spread all most the full length of the garage. Many visitors, gazing at the great size of the ship and the small doors at the front and rear of the garage, suddenly become possessed with an idea that the builders have overlooked something, and ask "How do you expect to get the plane out of the garage?"

The air pilots in Calgary are very much interested in the Scott-Bambrake plane, and when the machine is completed one of them will come down here to test it out.

The field work was good on the part of Huxar.

The line-up: Huxar, Lee Phillips; Gordon Lederman; G. Mayville; Anderson 1b; Graham Montgomery 2b; Johnnie Moffat 3b; Bruce Bell 4b; H. Elson 5b; Frank Bettley 6b; L. L. Moffat 7b; H. Elson 8b; H. E. B. Ramsay Receives Appointment As Head Of New Grain Board

Ottawa.—The Canadian Board of Grain Commissioners will be: E. B. Ramsay, chairman, Prof. Duncan A. MacCibbin, Hon. C. M. Hamilton.

This announcement was made here by Hon. James Macdonald, Minister of Trade and Commerce. Recently the three who composed the board, Leslie H. Boyd, E.C., James Robinson and Matthew Snow, resigned after many years' service.

The announcement of their successors has been awaited with a great deal of interest, particularly by those in any way connected with the grain trade.

E. B. Ramsay is general manager of the Canadian Wheat Pool with headquarters at Winnipeg, and a former banker. "He is highly regarded in the west for his financial and selling ability," says a statement making public his appointment. The statement adds:

"Professor Duncan A. MacCibbin, professor of political economy of the University of Alberta, is an outstanding economist in western Canada, who drafted the economic factors of the Turgeon report and has a comprehensive understanding of western conditions."

"Hon. Charles Magill Hamilton, Minister of Agriculture for the Province of Saskatchewan, is a practical agriculturist. All three are outstanding business men, familiar with the grain trade and representative of the three main provinces, one from Manitoba, one from Saskatchewan, and one from Alberta."

Naval Disarmament Plans Are Proceeding

Negotiations Between Britain and United States Show Satisfactory Progress

London, England.—Authoritative quarters state that the naval disarmament negotiations between London and Washington were proceeding satisfactorily.

It is predicted that Premier MacDonald will go to the United States in October, after a visit to Geneva, for the meeting of the assembly of the League of Nations.

It is expected that he will then be able to discuss tentative arrangements for a five-power conference.

It is presumed that further arrangements will be reached when Premier MacDonald meets Ambassador Dawes at Birmmington-Auger at a time when they probably will be present at a luncheon given by that municipality.

Wants Alberta Coal But Price Probable

Manager Of Winnipeg Hydro Plant, Price Too High

Winnipeg, Man.—The price asked for Alberta coal by the dealers was forcing him to bring in to Winnipeg, American coal for the city steam heating plant, was the statement made by J. G. Glasco, manager of the Winnipeg Hydro. He declared it appeared likely that the entire coal supply would have to be brought from across the border.

"Canadian dealers are submitting tenders for Alberta coal at \$7.00 a ton, as compared with \$7.20 quoted for the American product," Mr. Glasco said, adding: "the tragedy is that the coal we want is in Alberta."

Granted Pilot's Certificate

Miss MacRie Is Sixth Licensed Woman Pilot In Canada

Ottawa.—Miss Julia MacRie, daughter of Major General MacRie, president of the Aviation League of Canada and former chief of general staff in the Department of National Defence, was the state- ment made by a pilot's certificate.

Miss MacRie is the second member of her family to secure a private pilot's license. Her father is at present on an aerial tour of the prairie provinces. She is the sixth licensed woman pilot in Canada, and is 19 years of age.

Liberals Win Seat

Prince Albert.—Final figures received here from the last three polls to be heard from in Cumberland constituency give D. A. Hall, Liberal, 304 votes, as against 203 for the Conservative, 62, and 20 for the Independent-Conservative, 62.

W. N. U. 1790

British Columbia Fire Situation Is Serious

Pacific Coast Province Shrouded In Pall Of Smoke

Vancouver, B.C.—With the smoke of the southern forest fires of British Columbia shrouding in a pall of smoke from a hundred and fifty fires, the fire situation in this province is reported by forestry officials as very critical. All available unemployed men in Nelson and vicinity have been called to fight the outbursts and a handful of men recruited in an effort to cope with the situation. So dense is the smoke at Nelson that the forestry airplane is unable to leave the water on account of the poor visibility.

A serious situation exists at Hazelton, between Grand Forks and Hazelton, in the boundary district, where fire fighters are doing their best to subside the fire raging there, with out the aid of water. Fire at Westbridge, also in the boundary district, is out of control. The Sheep Creek outbreak, on the International boundary, is reported under control.

The forest fire situation on the lower mainland and Vancouver Island remains extremely hazardous. Particularly serious are conditions in the vicinity of Campbell River, Vancouver Island, where fires are burning large tracts of standing timber.

Particularly serious are conditions in the vicinity of Campbell River, Vancouver Island, where fires are burning large tracts of standing timber.

THOMAS SEEKS OPENINGS HERE FOR UNEMPLOYED

London, Eng.—When Rt. Hon. J. H. Thomas, Lord Privy Seal and unofficial Minister of Employment, reaches Ottawa, he will emphasize to the Canadian Government that more openings for British labor could be created in the Dominion if British capital and enterprise were utilized more fully to develop Canadian industries, according to the Manchester Guardian.

The under bond and with the formal permission of the United States government, Washington.—Secretary Stimson said that the return of Mr. and Mrs. Ying Kuo and Sun Foon, formerly connected with the Chinese Consulate at San Francisco, to China, had been the desire of the Chinese government, and that the prisoners had waived their right in the United States on charges of opium smuggling or complicity.

The government has secured assurances, he said, that the three persons would be released when Premier MacDonald meets Ambassador Dawes at Birmmington-Auger at a time when they probably will be present at a luncheon given by that municipality.

Advise Return To Bogor

Better For King George Than Sandringham Say Doctors

London, England.—The Daily News says that King George's doctors had advised him to return to the seaside for a short time to strengthen his health, but that the king's health since his second operation, had planned to go shortly to Sandringham.

The Daily News added that it was feared the King might be tempted to exceed his strength at Sandringham by indulging in grouse shooting of which he is very fond.

This danger would be avoided if he could be persuaded to remain in London for a short time and then to go to the coast for the next few months.

He would stay at Craigview House, where he was moved from London after his grave illness last winter.

Probing Status Of Women In Quebec

Special Commission Appointed To Study The Question

Quebec, Que.—The provincial cabinet, at a meeting held here, appointed a special commission to study the question of the legal status of women in the province of Quebec. The members of the commission will be Judge C. N. Dugas, Chief Magistrate, Mr. J. Roy, and Joseph Sirois, notary, all of Quebec City, and Victor Morin, attorney, of Montreal.

Poincare Goes Home

Paris.—Former Premier Raymond Poincare has been removed from the clinic where he was operated on two weeks ago and taken to his home to await more complete recovery and a second and more serious operation about September 15. His condition was described by his physicians as "highly satisfactory."

HEADS BRITISH MEDICAL ASSOCIATION

Normal School Course In Saskatchewan—No Change Made

Regina.—No change has been made in the length of the Normal school course in Saskatchewan according to an official statement issued by the department of education.

From inquiries that are being received at the department, it appears that the impression has got abroad that the normal school course has been lengthened to two years. This is not the case.

The sessions opening on September 4, will continue until June 4, 1920, and students who complete the course satisfactorily will receive interim, second or first class certificates, according to their academic standing.

Building Bigger Liner

Vessel Replacing Oceania Will Challenge Speed Of Bremen

London, England.—A Belfast shipyard is building a liner to challenge the keel of the 60,000 ton White Star steamship "Oceania," to have been the greatest liner of the world, has been completely demolished and plans are being prepared for a new vessel to take up the speed challenge of the new North German Lloyd "Bremen."

The keel was laid last October and was nearly completed when work was stopped on July 23. It was understood that a new ship, to be even greater in length than the 1,000-foot first originally proposed for the "Oceania," was to be built.

Japanese Officers Killed

Were Making Preparations For Reception Of Graf Zeppelin

Tokushima, Japan. Six high army officers, including Major General Ogawa, of the Imperial General staff, were killed when a military airplane crashed at Kousuimaru, while making preparations for the world flight of the dirigible Graf Zeppelin, the seventh occupant of the plane, also an army officer, is dying. The plane was a huge bomber.

U. S. CRITICISM OF REPARATIONS PUZZLES BRITAIN

London, Eng.—American newspaper criticism of Lt. Hon. Philip Snowden's attitude at the League of Nations conference in connection with Britain's heavy financial burden has surprised and puzzled in Britain, mystified the British people, newspaper and politicians.

They find it difficult to reconcile the British attitude at the League of Nations conference in connection with Britain's heavy financial burden has surprised and puzzled in Britain, mystified the British people, newspaper and politicians.

INDIAN SIGNS FOR SCOUTS

His In Indian sign language and was photographed on his way to attend the World Scout Jamboree held at Birkenhead, England, first two weeks of August. About 350 United States Boy Scouts travelled on the "Duchess of York," and in all some fifty thousand scouts were present from forty countries at the jubilee in honor of the 21st anniversary of the founding of the movement.

Mr. Tomkins, member of the Boy Scouts' Association, is here shown demonstrating to a boy scout on board Canadian Pacific steamship "Duchess of York," the Indian sign for "good" while the scout is making the sign for "wolf" which means "scout." Mr. Tomkins has been specially commissioned by Chief Scout Baden-Powell, to instruct boy scouts

The sessions opening on September 4, will continue until June 4, 1920, and students who complete the course satisfactorily will receive interim, second or first class certificates, according to their academic standing.

Sudden Passing Of General Lord Horne Mourned By Empire

Edinburgh, Scotland.—Great Britain and the Empire is mourning the loss of Gen. Lord Horne, commander of the first army from 1916, and famous for his artillery policy in the battles of the Somme. Lord Horne died suddenly while shooting on the moors of his estate at Stirling.

The despatches did not give the cause of his death. He was 68 years old and had held nearly four commands in the British Army where he was celebrated especially as an artillery commander.

The Canadian corps, as part of the first army, came under Lord Horne in the closing drive of 1918. Gen. Sir Arthur Currie, commander of the Canadian corps, was the recipient of an historic message from the army commander after the great Canadian effort at Cambrai. Lord Horne then expressed his high appreciation of the determined fighting by the Canadians in forcing the crossing of the canal and capturing Bourlon Wood and the high ground north and northwest of Cambrai, when troops of twelve enemy divisions were engaged.

Lord Horne's funeral will take place in the presence of the four Canadian divisions.

Create New Order

Organization Formed By British Officers Of World War

New York. The formation of the new British Officers of the World War with high ranking military officials of this country, Great Britain and France is announced by Arthur de Bick, an artist and lecturer, who was British administrator at Cologne, Germany, in 1918.

The aims of the organization are the promotion of Anglo-American unity, the preservation of the memory of those who died in the world war and the adequate representation in foreign lands of the men who served as officers in the British Army.

SUNDAY SCHOOL LESSON

REHEARDING THE TEMPLE

Golden Text: "I was glad when they said unto me, let us go and build the house of the Lord." (Ezra 3:1-22; Psalm 81:1-2).

Devotional Reading: Psalm 122.

Explanations and Comments

The erection of the altar of burnt offerings, Ezra 3:1-22. The journey from Babylon must have been a long one. The first work undertaken in the homeland was the building of houses and the filling of the land with people. The temple after their return the altar of burnt offerings was rebuilt and the offerings were sacrificed according to the law of Moses.

While the women had the founded the priests in their official robes bore the trumpets, and the Levites sang in praise of the Lord as had been done in the time of David, saying, "For He is faithful for ever towards Israel." This recalls the goodness and mercy of God shown through Psalm 107:1-18.

Quaker, Que. Sir Eric Geddes, a former minister of transport in the British wartime government and now chairman of Imperial Airways, Limited, sailed from Quebec on the "Empress of Australia," following a brief business visit to this country.

Tinder Loss Heavy

Prince Albert, Sask.—Forest fires losses in Saskatchewan to date this year are greater than during any previous year in the history of the Dominion Forestry Service suppressing operations in this province.

FIRST SILK STOCKINGS

Silk stockings were introduced to England from Spain, and were worn by men and women alike—when they could get them. In 1666 we find Sir Thomas Gresham writing from Antwerp to Sir William Cecil, Elizabeth's minister: "I have written to Spain for silk hose both for you and my lady, your wife." These silk hose of black were soon afterwards sent by Gresham to Cecil. Up to the time

of Henry VIII hose were made of ordinary cloth. That monarch's were formed of yard wide taffeta. On rare occasions he obtained a pair of silk hose from Spain. His son, Edward VI, was not more fortunate in this respect. Sir Thomas Gresham told him "a pair of long, Spanish silk stockings" which so impressed Stow, the chronicler, that he speaks of them as "a great present."

Calgary is endeavoring to eliminate unnecessary street noise, but nobody has suggested that the City of the Footstall stop rooting her own horn.

A Quebec man is the father of three pairs of wings, all boys. Here is a man who is certainly big-brained.

Following recent prison riots, bigger and better prisons are being advocated in the United States. Sounds like an advertising campaign.

It has been estimated that if all the energy was used in blowing the kites could be diverted and made to operate windmills, enough water could be pumped to irrigate the whole of southern Alberta.

Philip Stanbury, the diminutive and crippled character of the ex-chaplain in the British Government, possess the real fighting spirit of the British lion, and when he roars he means business.

THE YELLOW PERIL

Evidence of the growing menace of the Chinese alien population in the commercial life of Vancouver is revealed in a survey recently made in the business men of that city. The report shows that Chinese are now operating a large variety of businesses in Vancouver, and they are expanding at a rate that is alarming to white traders. The Chinese are principally engaged in the greengrocer business, tobacco, candy, and grocery business.

In the greengrocer business even since Chinese stores were opened in Vancouver during 1923, and in these, seventy-seven were outside Chinatown. In the same year there were thirty-seven Chinese grocers, also outside of Chinatown; and seventy-six Japanese grocers, fifteen of whom were outside the area generally accepted by this nationality.

The encroachment of the Oriental business man is the cause of much concern among retail storekeepers of the white race, and the greener show their fears will be grounded. The Oriental is expanding every year; he is reaching out and taking business away from the white man.

The Oriental is thrifty, and a hard worker, with a low standard of living which enables him to successfully compete against his white competitor. The increase of the yellow population of British Columbia, and the expansion of Chinese and Japanese business men in the coastal province constitute a serious problem. And it is not only a problem concerning the coastal province alone, but a national problem which should be dealt with by the Dominion Government.

FIRE PROTECTION

Recent discussion here at Wainwright, Tofield, and Lloydminster have impressed the thinking man with the seriousness and ever threatening danger of fire. Fire loss runs very often are traced to carelessness. The thoughtless act of throwing away a match or cigarette butt may start a fire that will do thousands of dollars worth of damage.

Bassano is better equipped for fire fighting than most towns of its size. We have a sawworks system, hydrants at every corner of the business section and the main residential sections of town; we have good fire fighting equipment, and an efficient fire brigade. Undoubtedly the efficiency of Bassano's fire brigade and fire fighting equipment has been the means of lessening the fire loss in this town. But too much should not be expected of the fire fighting department. Residents should have their buildings and contents adequately insured, and reasonable care should be exercised in the use of matches and cigarettes, the disposal of hot ashes, and the care of stove pipes and chimneys.

The day after McPadden's funeral David McAllister called on the widow and after some hesitation, asked for her hand.

"I'm sorry, David," said she, "for I like you well enough; but you're late. If you'd really wanted me you could have spoke long ago; you ken it was common knowledge in the village three weeks ago that McPadden couldn't get better."

Elmer: "Trust her! You surely don't think she could keep a secret."
Muttie: "Well, I've trusted her with other things, and she kept them."

A ROYAL HEART
Ragged, uncomely and old and grey, (Truth being read!) And through the crowds as he wound his way One saw her taller and then stoop down.

Putting something away in her old torn gown.

"You are hiding at 'jewel' the watcher said. (Ah! that was her heart had the 'truth been read!') 'What have you stolen?' he asked again; Then the dim eyes filled with a sudden pain.

And under the flickering light of the gas She showed him her gleaming, 'It's broken glass.' She said, 'I have lifted it up from the street

To be out of the road of the hairpins' feet."

Under the fluttering rag that beat! That was a royal heart that beat! Would that the world had more like her! Something the road for his hairpins' feet.

Kernal Tragedy
Fond Parent: "What's the matter, dear?"
Daughter: "Freddie and I have parted forever."
"Um! In that case I suppose he won't be around here for a couple of nights."

When Duty is a Pleasure
Wife of death: "What shall we give mother for her birthday?"
Daughter: "Tell her I will extract her teeth for nothing."

Education by Ear
"Island," said the teacher in the geography class, "is about as large as slim."
"Island," wrote John at examination, "is about as large as teacher."

Rattling the Skeleton
Hard-boiled Grocer: "No, sir! no cheese! I wouldn't cash a cheque for my own brother."
Disappointed Customer: "Well, of course, you know your family better than I do."

Relief Map
Mrs. Newlywed: "Oh, you did splendidly with the wallpapering, darling! But what are those funny lumps?"
Mr. Newlywed: "Good heavens! I forgot to take down the pictures."

The very latest statistics show that, with highest percentage of autos per capita, the United States alone being gistered in the Dominion of Canada, ahead of us. There are almost as or about one car to every ten persons, many cars in the Dominion as there are. This places Canada second in the world in the list of countries in the world 145,000,000.

You cannot match these BIG CAR FEATURES

at or near Pontiac price

IN fact, you can't think of the Pontiac Big Six in terms of other cars of its price. . . . Simply because Pontiac presents big car value at small car cost. Here are big car luxury of appointments . . . the solid ease of the roomy interior . . . such comfort as only a big car can give you . . . the grace and elegance of a big car revealed in every line of the Body by Fisher. Test Pontiac's real big car performance. Experience the power of the big six engine with GMR High-compression Cylinder Head. Learn about the Lovejoy Hydraulic Shock Absorbers that add immeasurably to your riding comfort; the Inter-axle-expanding Four-wheel Brakes . . . and all the other advanced achievements in engineering and design now embodied in Pontiac for the first time in the low-priced field. Check appearance for appearance . . . performance for performance. You cannot match these big car features at or near Pontiac price. A trial ride will prove a revelation to you.

WILD HORSES FOR FOX MEAT

Four thousand wild horses from the foothills of Alberta will be taken to Winnipeg to be slaughtered and sold as meat to eastern farm proprietors. The first contingent of four hundred has arrived this week, and another lot of four hundred is expected.

For years have kibitzers been supplied with offal and other waste from abattoirs, but there is a shortage this year and a great demand for the horse flesh is anticipated. It sells for about one cent a pound.

This new undertaking is partly due to drought conditions in the west. In Alberta and Montana thousands of horses are running wild on the prairies, eating the grass needed for cattle.

And His Negatives Make a Flip

Louise, shuffled into the employ- ment office down in Savannah one morning, and said hopefully: "Why don't you find me nobody who don't want nobody to do nothing, don't you?"

Nancy, who was only 9, was much impressed when a large bunch of men arrived for her mother.

"Why do you get them, mother?" she asked.

"You see, Nancy, seven years ago today daddy and mother were married," explained her mother.

"Goodness! He was a long time sending them, wasn't he? You'd think he'd have sent them seven years ago!"

A. G. Bond was a visitor to Calgary over the week-end.

Miss E. Dugan, of Coleman, is the guest of Miss Violet King.

Roy Smith started on Monday to cut his wheat crop with a combine.

Mr. Robinson, of McKee's Stores, is leaving for the north country where he has an interest in a farm.

Jan. White, of Calgary, is the new manager of McKee's men's wear store.

Dr. and Mrs. W. G. Anderson and children, of Wardlaw, were visiting in Bassano on Thursday.

D. B. Mitchell made a trip to Delta, east of Drumheller, during the week-end.

The dance in Hussar last Friday evening was attended by a number of Bassano young people.

W. E. Sambrone on Tuesday made his weekly trip to Calgary to continue his flying lessons.

A son was born to Mr. and Mrs. Crapo, of Clary, on Sunday, Aug. 13th, at the Bassano Hospital.

Miss McClelland, of Swift Current, is a new member of the nursing staff at the Bassano Hospital.

Mrs. Wm. Buchanan and children, of Redox, are visiting with Mrs. Buchanan's mother, Mrs. E. Hinds.

Thomas Matson, of Alderson, is a patient in the hospital here. He was accidentally shot in the side while hunting coyotes.

Norm Owen, of Strevell, is a patient in the local hospital. He was operated on last Monday, having a ruptured appendix.

E. Thompson, of Countess, is in the Bassano Hospital, having been operated on yesterday for a ruptured appendix.

A. Johnson, of Vulcan, a former member of the Bank of Commerce staff here, was visiting in Bassano this week.

C. C. Wilson, at one time resident of Bassano, has moved to Rockyford. For the past few years he has been living in Calgary.

Miss Irene Magee left early this week for home at Hawlf, Alberta, where she will spend a two weeks vacation recovering from her recent illness.

Rold, Weber, a fourteen old lad who has been living on the farm of Geo. Beckman, at Glen, was brought to the local hospital last week suffering with a broken leg.

Dr. J. W. and Mrs. Tegerdine, of Chicago, former residents of Bassano, are visiting in town this week. They are the guests of Mr. and Mrs. M. R. Milroy.

Chas. W. Hayes has obtained a position with the Searle Grain Co., Ltd., and will leave about the end of this week to take charge of the company's elevator at Tisdale, Sask.

J. S. Hood is the new agent in charge of the Post elevator in Bassano. Mr. Hood came here from Dalrym, on the Frisco-Langdon line of the C. P. R.

School Inspector J. F. Boyce is back in town this week in connection with the re-opening of several schools in the district of which he is official trustee.

The Bassano Board of Trade will meet next Wednesday, Aug. 23rd, at one o'clock noon. This is the last meeting of the holiday season. Meeting in September the board will meet again twice a month, on the second and fourth Wednesdays.

(from the Forest Park Review, Illinois)

"Dr. J. William Tegerdine, D. C., with offices at 7434 Madison street, is a proud father these days. He is in receipt of a letter from the department of education of Stockton Junior high school informing him that his daughter, Rose, is a superior pupil. She received the grading of superior on every subject, and was placed on the school 'shark' list. She is in grade 7th, and was the only pupil in her class to get on the list during the month of April. Another daughter, Althea, was graded as superior on all of her subjects at Lake View high school. The Tegerdines live at 4741 Paulina street, Chicago. Fear of disrupting the schooling of his children is the main reason given by Dr. Tegerdine for not removing his family to Forest Park where he has his office."

WINTER BYE AS A PODDER CROP

(Experiment Farm News)

As a grain producer winter rye is open to the grave drawback that it is a persistent volunteer, becoming an obnoxious invader in crops of other cereals, particularly wheat.

The objection has little force where the crop is grown for hay or pasture. Its peculiar suitability is in providing late autumn and early spring pasture. It may also be made to furnish summer pasture as well if sown in June or July and grazed closely enough to prevent its joining during the first season.

In certain seedling-down tests on the Beaverlodge Experiment winter rye used as a nurse crop has been seeded as fortnightly intervals from the middle of May onward, the area being grazed closely until August, yielding a considerable amount of excellent feed. However, there is not ordinarily much net advantage in this substituting rye for grass or sweet clover except to extend the grazing at each end. This may well be done with six weeks of winter rye drilled in July or very early August, (depending upon soil season, and locality) and pastured judiciously of autumn, then again in the second season until about the first of June, after which it becomes rather unpalatable. The first crop may well be left to produce a hay crop or to a grain crop if desired, or it may be placed at once and soon to oats for green feed, or summer fallowed.

Used in this way, rye may well serve in helping to clean the land.

A mixture of oats and winter rye makes a good hog pasture, the oats providing the bulk of the winter pasture while the rye comes to its support later on.

Where bulk rather than quality is the prime object, winter rye may be employed as a hay crop. If cut as soon as it heads out the quality will be fair. In a number of cases the writer has known horses to refuse winter rye at first but to gradually change their minds and eat it well, working quite satisfactorily upon it.

Dom. Exp. Station, Beaverlodge, Alta.

McLAUGHLIN - BUICK COMES OUT WITH NEW MODEL

Three entirely new series of cars, more powerful and more impressive than those they replace, constitute the 1939 McLaughlin-Buick.

The three series are known as the "40," "50," and "60" series, and include in all fourteen models. The former 114 inch 121 inch, and 129 inch have been entirely eliminated, and a new grouping of models made. Although larger and more powerful than any cars ever before offered by McLaughlin-Buick, the series "60" models represent a considerable reduction in price from the previous highest priced McLaughlin-Buick models, and this attractive pricing carries down through the other two series.

The value-in-a-master six cylinder which powers the series "60" models developed last year developed V-8 and 84 horsepower respectively.

More attractive bodies and innumerable mechanical improvements and refinements among the many surprises that await the interested motorist who visits the McLaughlin-Buick showrooms.

COOL THE CREAM BEFORE MIXING

In the dairy section of a popular Canadian weekly, one reads the following article respecting the care of cream:

"Do not milk the cows in a hurry, separate in a hurry, and then mix the warm cream with that already cold just to get it out of the way. We may be in a great rush to get at our work, but that does not change the fact that the mixing of warm and cold cream gives the whole contents of the can a lumpy consistency that is difficult to cut accurately and causes rapid curdling and an inferior grade. It does not take long to cool a pail of cream to the temperature of well water. It may then be added to the can and the cream in the can should then be stirred to mix the new with the older. Now that cream is paid for according to quality, we have a real incentive to follow these simple precautions."

Born Third Vice President

Max "Mac" Macdonald to you, John Junior. He doesn't like to work, and gets that Jones boy to do everything for him. I don't want to have a lazy, good-for-nothing son."

Pat: "Lazy? My stars! He shows executive ability."

A canvasser, calling on a woman elector, asked if she were interested in the Liberal party.

"Yes, of course," she replied. "Where are they having it?"

Rowley: "I was just reading about a man seventy years old who has been sent to prison for the fifth time for burglary."

Cowley: "Yes, old age steals on."

The 1930 McLAUGHLIN-BUICK

The Greatest Success in all McLaughlin-Buick history!

NEVER, in McLaughlin-Buick's long, successful history, has any new model been accorded such spontaneous and enthusiastic acclaim as McLaughlin-Buick for 1930. From every province, from East and West, are already coming reports of the most amazing volume of sales ever recorded for any McLaughlin-Buick within its first two weeks. Hundreds of buyers did not even wait for demonstrations, but placed their orders unconditionally, upon their first inspection of this "greatest McLaughlin-Buick of them all." It was inevitable that this New 1930 McLaughlin-Buick... three great new series, larger, more powerful, more beautiful, more luxurious than ever... should win an instant and exceptional success. See it for yourself at our showrooms.

Exports Of Pulp and Paper

Considerable Increase Shown in First Half Of Current Year

For the first half of the current year exports of pulp and paper were valued at \$79,199,960, as compared with \$41,104,081 in the corresponding six months of 1928, according to the monthly report of the Canadian Pulp and Paper Association. Wood-pulp exports for the period amounted to \$21,470,505, and exports of paper to \$57,729,455, as compared with \$22,330,880, and \$21,301,201, respectively for the first half of 1928. Pulp-wood exports have been smaller this year, the six months' shipments being valued at \$5,942,823, as compared with \$6,925,000.

It is high time you were insured against accidents, etc.

Too Much Low Flying

Habit Is Menace To Public and Should Be Forbidden

Aeroplane pilot, crashing as a result of collisions with telephone or telegraph wires or falling on account of losing their flying speed a few hundred feet above the earth brings up the danger of persons on the ground when accidents of this kind occur. The newspapers recently carried a despatch from Kentucky that a student pilot, flying in the centre of the business district of a Kentucky town, killing the aviator and two business men.

Those who are interested in flying and genuinely anxious to promote the development of aviation have been doing everything in their power to bring into effect regulations that will make for the safety of those who fly and those on the ground. Despite their efforts it is possible that too much flying at a low altitude is being done over Western Canadian cities and towns. In aeroplane a few hundred feet above a city street is a menace to citizens. The accident that cost lives in the Kentucky town might be repeated here.

The authorities, no doubt, would have the hearty co-operation of aviation pilots in their efforts to prevent flying over cities and towns except at a height that would give the pilot a chance to guide to an open landing place in case of accidents. Furthermore, no pilot should be allowed to fly above or around a city or town who is not familiar with the location of all power, telephone, and telegraph wires.

Aviation is so important that everything possible must be done to reduce risks of every kind. Regina Daily Post.

PARIS COTTON FROCK

It is quite possible to appear smart, dainty and comfortable this season, because Paris decrees the short-sleeved frock as the newest choice for summer wear. Style No. 562 is strikingly effective in printed cotton voile. It is in flattering capsize tones which enhance the charm of the sun-kissed complexion. The applied yoke of bodice which boasts of modern style is finished with a wide binding tone which appears again in circular trim of skirt. The hip-line is given a swing effect through drape of skirt. It is a fetching dress for town or resort. It comes in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust. Trimmed lawn, sheer linen in pastel or print, flowered crepe, shantung, printed ruffled silk, crepe de chine, and georgette crepe appropriate. Pattern price 25 cents in stamps or cash (cash preferred). Wrap only carefully.

Business and pleasure cause a lot of trouble because people refuse to let them alone.

The United States imports 9,000,000 pounds of bananas a year.

Mr. and Mrs. John Frederick Sanderson, snapped as they were leaving Knox College Chapel, Toronto, following their marriage. The bride was formerly Miss Beryl Hodgins, younger daughter of Mr. and Mrs. W. F. G. Hodgins, of Moonbeam, Sask. The groom, who is the son of Mr. F. G. Sanderson, Liberal whip for the Dominion, is a member of the staff of the London Advertiser, London, Ontario.

Start Tour Of World

Three Young Women Plan Trip To Remote Places

Arranged in trim khaki colored trousers and shirts, leather puttees and caps with badges on them, but also wearing lip rouge so they won't be mistaken for motor cycle cops, three young women have set out from New York in a light motor truck to "go places and see things" in remote corners of the earth.

They are heading for Alaska; the party consists of Baroness Chiriac, Von Brandenstein, a movie actress, Miss Nana De Namur, and a girl reporter, Miss Margaret O'Donoghue, Ottawa, Ont.

They're going to all the remote places they can find—partly, Miss De Namur confessed, in answer to a magazine challenge that women can do that sort of thing; and partly on the theory that, being more patient and painstaking than men, they'll find out a lot of "dope" that the male explorers passed up.

Heading as far north in Alaska as we can in the car. Then we hope to get an aeroplane ride and after that dog teams will get us away up where no white woman has been before.

"And after that we're going to the North desert, the wilds of central, Iceland and, oh, lots of places. We expect to circle the globe and get back in about three years."

No Butter Shortage

Production In Prairie Provinces Greater Than Last Year

There is evidently not going to be any scarcity of butter in Western Canada this year. Production of creamery butter in the prairie provinces in 1929 is considerably greater than last year.

For the first five months of this year receipts of creamery butter at output in Alberta showed an increase of 18 per cent, compared with the corresponding five months of 1928. The quantity of creamery butter produced in Saskatchewan during the five months under review was 2,831,236 pounds, compared with 2,082,620 pounds during a similar period last year, an increase of 3,748,616 pounds, or 84 per cent. Manitoba creamery butter production was 2,507,549 pounds compared with 2,608,828 pounds, an increase of 896,021 pounds or 34.5 per cent.

More Than Obsolete

"He is so obsolete," said his wife, "he will never do anything he, asked."

"He was always like that," said his old friend. "As boys we were out in a boat once, when a dispute arose, and he was thrown overboard, with the injunction 'think or swim!'"

"Which did he do?"

"Neither, he lay on his back and floated."

The famous cross of snow in the Holy Cross National Forest of Colorado is formed by two snow filled crevices on the side of the mountain. The cross is visible for miles.

The United States imports 9,000,000 pounds of bananas a year.

Recipes For This Week

(By Betty Barclay)

ICED COFFEE

The coffee should be made extra strong and poured while hot into glasses filled with cracked ice. Melting of the ice will decrease the strength of the beverage. Four cream into the glass to suit the taste and, if desired, add whipped cream.

FRUIT MINT SAUCE FOR LAMB

1 cup finely-chopped mint.
1 cup orange juice.
1 cup lemon juice.
1 tablespoon powdered sugar.

Add sugar and fruit juice to mint and let stand in warm place for 30 minutes.

A Definite Record

Handwriting Is Key To Personality

Says Frederick D. Jacob

If you have committed a burglary, or intend to commit one, or if you have a secret weakness that you do not want discovered do not send a letter in your own handwriting to Mr. Frederick D. Jacob, the Dominion Government's official "psychographer" at Ottawa, for this quiet, mild-mannered little man's job consists of translating handwriting in terms of character of the person behind it.

"Graphology is based on observation, backed by common-sense," Jacob affirmed, as he illustrated his point with prepared handwriting specimens. "The mind man who gives you a weak, flabby handbake writes a timid, weak hand. The man with a virile grip writes a firm hand. Every act of a man's life bears the stamp of his personality and the manner of performance corresponds with the character of the performer. Hence handwriting is definite record of the mind behind the pen."

Mr. Jacob began the study of graphology during his newspaper days and by noting the peculiarities in the signatures of the great and the near-great on hotel registers he won out on his own from concerning them. "Those he has checked by years of experience and against the observations and experiences of other graphologists, and he insists that they are dependable."

On one occasion when the Federal Government was being sued for a sum of over a million dollars a letter containing the handwriting of the plaintiff was submitted to Jacob.

The person concerned, he reported to the department, "is suffering from a mental disease, and will shortly die." The man died in a short time from the effects of a stroke. Jacob had observed signs of abnormal blood pressure. He holds that questions of health, such as disorders of the brain, heart and digestive system, are invariably revealed by handwriting.

Well, there is one advantage the horse has over the automobile, and that is that he doesn't depreciate so fast.

A bad imitation of wickedness is better than the real thing.

Proved His Heroism

George Horne, Toronto Hockey Player, Gave Life For Companion

The other day three Canadian young men found themselves in a peril when the canoe in which they were travelling on a prospecting tour in Northern Ontario upset.

The men clung to the upturned canoe but when it was seen that the weight of the three of them was more than the boat would stand, one of them struck out to swim for the shore. He was George Alexander Horne, star forward of the Maple Leaf hockey team of Toronto, commonly known to hockey fans as "Shorty." The weather was bad, the lake was rough, and Horne went down before he could reach the land. His two companions state that Horne's action in taking a chance on reaching the shore by swimming undoubtedly saved their lives.

"Shorty" Horne, no doubt, was just an average young Canadian, claiming to be no better than the ordinary run of fellows with whom he associated. He did the things that the average young Canadian does; he played hockey, was active in sports, knew how to handle a canoe, liked the open-air life and the northern waters and hills. No one would pick him out as of heroic stuff, yet when death, suddenly, in the lashing waters of a Northern lake, threw a lake to his face, he took up by gauntlet without hesitation that others might have their lives.

Philip Sydney, English knight, gives up the cup of water to the dying soldier; "Shorty" Horne, hockey player and prospector, lays down his life to save his friends.

The race retains its element of greatness—Regina Daily Post.

Farm Families' Income

According to an estimate made by the Nor-West Farmer, the 248,162 farm families in the three prairie provinces received \$631,450,894 for the 1928 marketing. This makes a cash income of \$2,544 per home—less of seed, feed, meat, vegetables and other commodities produced and retained by the farmer for his own requirements.

Find Old Descriptions

A fossil turtle, belonging to an unknown species, has been found in the Field Museum of Natural History. The shell of the turtle bears six Chinese inscriptions which are thought to be more than 4,000 years old. They are in the earliest of Chinese writing and correspond to the characters on the famous oracle bones of Homan.

Revenue from tourists visiting Canada will, it is expected, total nearly \$200,000,000 this year. Last year tourists spent over \$200,000,000 in the Dominion.

Tourists looking for Sunday parking places will be glad to learn that a few choice ones may still be found near country churches.

ADMIRAL OF THE FLEET

Sir Osmond Rock, commander-in-chief of the Portsmouth Division, British Navy, since 1926, and a Jutland veteran, has been appointed Admiral of the Fleet, to succeed Sir Charles Madden.

Air Feats Of The Past

Flights and Endurance Records More Thrilling Twenty Years Ago

It is interesting to turn back the calendar 20 years and consider the feat of aviation about which the world was excited at that time. Just two decades ago Louis Blériot, contemporary of the Wright brothers and a founding father of aviation, performed one of the most spectacular achievements of his day—the first flight across the English Channel. This year thousands of persons will cross the channel in air liners, but in July 1909, the world marvelled at the little Frenchman's 23-mile flight, accomplished in 37 minutes, ending near Dover with a smashed landing gear and propeller. His rival, Latham, had been fished out of the channel a few days before when an attempt to fly to England failed.

Blériot was one of the pioneers who faced the elementary problem of getting a flying machine off the ground and then making it stay up for any length of time. He blazed the trail followed in later years by Linbergh and his fellows, who use machines in which principles laid down by Blériot and his contemporaries were followed to the high mark the eagle fliers dreamed about.

It is educational to note also the endurance records of Blériot's day, as compared with the current performance of Jackson and O'Brien. In August, of 20 years ago, a French flier, Roger Sommer, astonished the world by breaking Wilbur Wright's record and remaining aloft 2 hours 27 minutes and 15 seconds. The improvement of the plane, it may be said, is in the ratio of the record to that of the St. Louis Robin.

Gas From Cypress Hills

Plan To Supply Saskatchewan With Natural Gas

H. I. Cowham, representative of Messrs. Roth and Faurot, oil gas producers, has been in Moose Jaw recently making arrangements for the development of gas and oil wells in the Cypress Hills to supply gas to the cities of Southern Saskatchewan. He expressed confidence that natural gas could be supplied Moose Jaw and other cities in the south and east from the Cypress Hills where, he states, gas and oil is located.

Railway Exhibit At Brandon Fair

The machinery, exhibit at the Brandon Fair this year is reported to have been the largest ever held in Canada, exceeding also all of any State fair held across the line. The number of machines, tractors, threshers, and so forth this year was 418 as compared with 409 last year; the number of exhibits, however, rose from 57 to 74.

Canada's Forests

The total forest area of Canada is estimated to be 1,151,454 square miles. Of this area, 865,880 square miles are productive and accessible; in the remaining one-third of this area bears timber of merchantable size; the remainder carries young growth not yet fit for use.

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that they pass through the atmosphere, through the vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is more effective substitute for glass, that it freely admits the Ultra-Violet rays, and that it uses the sun's rays in the most beneficial and development of plants and chickens and the welfare of the human race. It is the first time to have healthy light instead of darkness in their sheds.

During the last six years completely revolutionizing gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health and vitality of the birds used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, school factories, homes, restaurants, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or dilute with ordinary paint or oil. It is easy to fit. WINDOLITE is supplied in long any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 120 lbs. The Improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

The Singing Fool
By HUBERT DAIR
Copyright, 1927, Warner Bros. Pictures, Inc.

SYNOPSIS
Marcus, the famous Broadway producer, visits Blackie Joe's New York night club, where he hears Al Stone, Blackie's singing waiter, render a love ballad of his own composition. Marcus offers to buy the song and Al consents on condition that the producer will hire Molly, his sweet-heart, to sing the song in one of the Marcus reviews. Marcus agrees. Molly treated Al disdainfully before this because he was only a waiter, but now she makes up to him. Thus the night ends with two persons, Al and Molly, supremely happy. But there is sadness in the air. Blackie, the beautiful, cigarette girl for the club, is deeply in love with Al. She runs quickly home to hide her tears.

CHAPTER IX
Time healed the sharpest wounds, say the philosophers. Perhaps, but the memory of the wounds may last a long, long time. Perhaps it is the man or girl who has the strongest will to keep those memories from becoming bitter.

Grace Farrell, the cigarette girl at Blackie Joe's was a smart one. Al Stone and Molly Winton had left and become headliners on Broadway. As the weeks lengthened into months, Grace heard reports of their achievements and saw their pictures in the papers. Al had become one of the outstanding song-writers of Tin-Pan-Alley; his melodious songs featured all the Marcus reviews. His ballads and comic numbers had made him famous throughout America. Molly, true to Al's prediction, had become a headliner in the Marcus musical shows.

Once Grace begged time off from Blackie to see the outstanding Marcus show of the season. She had hoped Al would appear, but he didn't. However, Molly was there as one of the featured performers, singing Al's words and melodies. Grace, leaning forward in her first row of seats, had to admit Molly beat the songs over well. Molly was dead, graceful, self-possession, and she knew how to get the most from a song's variations.

"Perhaps I was wrong in thinking she couldn't make Al happy," mused Grace. "She certainly knows her business and she is awfully pretty." Yes, Molly was pretty. Yet Grace's intuition told her, even from this distance, that there was something odd and calculating about her successful blonde rival. Her smile and gaily made Grace distrust her.

But Grace caught herself up on these critical thoughts, perhaps, she reasoned, they came from jealousy, she determined to stifle them. They weren't fair to Molly.

Occasionally Al revisited Blackie Joe's and received congratulations from his old friends, but he never seemed to set foot in the place where she had started her climb up the ladder of fame. "That's Molly," too high-bait," murmured Blackie Joe to Grace in explanation.

Grace never forgot Al's first visit to Blackie's after Broadway had claimed him for its own. She was very busy with her cigarette tray.

When Baby Comes
If you cannot nurse him turn to Eagle Brand, the leading infant food since 1857.
EAGLE BRAND CONDENSED MILK

Molly and Al had first arrived on Broadway, John Perry had sung their praises and done them many little favors. Al, who liked everybody, had taken a decided fancy to John and had frequently talked over his songs with the demoralized racketeer. John hadn't seemed to like John so much at first, but lately his charm of manner had won her over, and her attitude had been quite friendly.

"You picked up the mousetrap Al enticed and plattered his hand." "Well, Al! old top, I've been visiting Molly. Hope you don't object." "Not at all," Al dismissed the suggestion with a laugh and a wave of the hand. "I like Molly to meet other men. And you know, John, I regard you as one of my best friends."

John Perry shrugged his glance toward the ceiling, shrugged his shoulders, but did not answer. "Shall we go, Al?" "I'm waiting for you some time." "Sure, right away. I was detained talking to Marcus about the new show. I have arranged for you to have the pick of the songs. Where shall we go to—club or home?" "Let's go home, Al, I'm tired."

As they left the dressing room Al was not alone. John Perry was with him. He did not see Perry give Molly's hand a surreptitious squeeze as she followed.

(To Be Continued.)

Town Growing Rapidly

Residents Of The Pas Feel Houses In Many Places
In many respects The Pas is a big town. It has movie theatres, dance halls and a variety of hotels. It has banks and banks, a newspaper, a liquor store and a diversion of rendezvous one finds in a frontier place.

Today there are about 300 buildings in The Pas. That is 300 more than it was a year ago. So the need of numbers in the town is apparent. The trouble has been that in the past couple of years the town council has been busy trying to enlarge utilities to care for the swift growth of the north, that the matter of numbering houses remained in the background.

Checking the Compass

Over 25,000 Measurements Have Been Made in Last Fifty Years
In 1880, field officers of the Topographical Survey, Department of the Interior, in the course of their regular surveying and mapping operations, had made about 25,000 measurements of the direction of pointing of the magnetic compass needle. Such measurements are now being made at the rate of a few minutes, at very little additional expense when he is already on the ground with the necessary instruments.

New Association For Canada

A number of firms interested in aeroplanes are forming an association under the title of "Canadian Aeronautical Chamber of Commerce." The decision was made following a meeting of 35 aircraft representatives in Montreal who were present in the city in connection with the aircraft show. By-laws of the new association have been drawn up, tentatively, and matters of organization planned and outlined. Incorporation is now being sought.

A Flying Yacht

The first flying yacht to be constructed in England, is being built for a private owner at Southampton. The hull is divided in three sections, the forepart being in the nose, the central portion devoted to passengers, and the kitchen in the rear compartment. Rallings can be erected round the hull and deck chairs and tables placed.

Suggests Boon For Canada

Diet Based On Canadian Products Would Be Good Thing

A new theory by Miss Mary L. Basher, a visitor to the West, is that a good diet is that dieting is a bad thing, and that health is her slogan. It has come to our notice that most of these diets, the life-day grapefruit diet, the 16-cornings-a-day diet, the all-trout diet and many others are a line advertisement for products that are raised in the United States. Thousands of men and women who are per-pump, eagerly scan the papers, magazines and pamphlets for diets, 90 out of every 100 are based on fruits. It is more than probable that the diets themselves originated where the fruit grew. Of course we all realize the value of fruit but it seems to us that it might be a good thing if the dietitians in this country got together and originated a number of diets based on Canadian products.

Why wouldn't it diet based on apples be a good thing? An apple for breakfast, apple-sauce sans sugar for lunch, and a baked apple for dinner, would be a most healthful diet. Why wouldn't the 18-day apple diet do all the things for you the 18-day grapefruit diet will? We would be consuming our home-grown apples.

On the prairies we don't have to go out of our own province to get a nutritious diet. The diet is all right. Think of the increase in the consumption of bran if all those who are bent on dieting could go on a bran diet. The dietitians, we are sure, can get out a booklet giving appetizing recipes for the preparing and serving of prairie products. Who will produce a real Canadian diet that will boost Canada instead of California?—Reginald Day.

Weights Canadian Outlook

Bank Of Montreal Says Other Items Won't Hurt
Canadian property will not be affected by the failure of the wheat crop this year because of numerous other sources of supply. The commercial field at large, according to a business summary issued by the Bank of Montreal. The report estimates that 200,000 bushels of wheat, with a possibility that it may not reach this figure, which will be the smallest crop of wheat in Canada since 1924, will be marketed to 262,097 bushels. The report says:

"In the five years elapsed since the partial crop failure of 1924, a large development of Canadian resources, industry and trade has occurred, but—because of the war—this has been an upward factor in that period instead of the downward factor in that period. The upward factor has been made in harnessing water powers, in new-print production, in mineral industries, in the fabrication of iron and steel, in output of minerals and in all departments of domestic trade. These upward factors have been greater than ever before. Midsum, formerly a slack season in business, now brings a large influx of tourists whose expenditures are in many branches and this year the influx is making a new high record.

Seeking Northern Paradise

Adventurers From Washington State To Investigate Eskimo's Story

The existence of a new north paradise is hinted by Eskimos who told William Leyman, of Kotzebue, a warmer continent with big rivers and fertile valleys beyond the Arctic Straits, according to officers of the "Dorchester," arriving at Tacoma, Wash. from the Alaskan coast on her first round trip this season.

As a result of Indian and Eskimo tales told in Kotzebue, Alaska, and several adventures plan to go by airplane to investigate rumors.

The white men this summer outboard motor for the north beyond the Alaskan shores. This incident alone is a contention that warm springs or open water of some kind exists toward the North Pole.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to lecture on the danger of worms without shock or injury to the most sensitive system. It is pleasant and, though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

When tea is spilled on a tablecloth, cover the spot with salt. Let it stand for an hour or so. When the cloth is washed the tea stain will have disappeared.

A professor on the Continent of Europe is able to read and write in two hundred tongues.

Feeling Run Down?
Over 400,000 women and girls who suffer from "blue," nervous, run-down, and unable to do their work are regaining health by taking Lydia E. Pinkham's Vegetable Compound. It is a complete record of every day's work benefit. You can be almost certain that it will help you too.

Canada To Establish Prison For Juveniles

Money Voted For Institution
Establishment of a penal institution for young people not hardened in the ways of crime will be brought about within two years, in the opinion of Gen. St. Pierre, Higher Commissioner of Canadian penal institutions.

Although the matter has been dormant since it was first broached in 1895, the Dominion Government has now appropriated money for the establishment of the juveniles, reformatory or penitentiary, and the institution will be established somewhere near Kingston, Gen. Hughes believes. Young people who must be punished will, through this new institution, be segregated from older and more hardened criminals, instead of being thrown into the same cell as is done under present conditions.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather he gets the little ones into bed. In a few hours he may be beyond aid. These troubles if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no more tranquil water than Baby's Own Tablets. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The J. C. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"And the Lord shall guide thee continually, and satisfy thy soul in drought."—Isaiah lviii. 11.
My Shepherd is the Lord my God, He will not leave me in the hands of mine enemies. He feeds me in verdant meadows, he refreshes my soul with tranquil waters. He restores my failing soul. With His divine care. And when I stray He puts the way before me to paths of righteousness."—Eugene Field.

Through every step in life, if we will but hear His voice and follow Him. He never promises much, but He does promise peace. If we follow Him we may find the deepest cliff "a path of pleasantness," and the lowest valley of happiness as a highway to peace. —Theodore L. Cuyler.

Stop the Cough.—Coughing is a sign of trouble in the respiratory passages and is the effort to dislodge the mucus which causes the inflammation of the mucous membrane. Treatment with Dr. Thomas' Cough Syrup will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Use Natural Hot Water

Citizens Of Boise, Idaho, Suffered From Hot Wells
Heating problems have been solved for 200 home owners of Boise, Idaho, who have natural hot water piped into their faucets. It is stated by E. Smith, vice-president and general manager of the Boise Water Corporation, in an article in the July issue of the Professional Engineer, monthly publication of the American Society of Engineers.

The water comes from the Hot Wells, several miles east of town.

An acre of quagmire was noticed to be warm and never covered by snow in winter. Several men decided to prospect for water and after digging six feet found a good flowing supply of hot water. They dug another well, and the two produce 800-1000 gallons a day. The water's temperature is around 170 degrees.

DOCTORS

quickly approve the quick comfort of Aspirin. For these perfectly harmless tablets will ease an aching head without penalty. Their increasing use year after year is proof that they do help and can't harm. Take them for any ache: to avoid the pain peculiar to women; many have found them marvelous at such times. The proven directions found in every package of Aspirin tell how to use it. Treat colds, sore throats, neuralgia, neuritis, etc. All druggists.

Local News

CORRECTION

On the middle page of this week's Mail appears a local item respecting an operation for appendicitis on Geo. Thompson, of Coaness. This should be Lloyd Thompson, son of Geo. Thompson, of Stone, writing: the middle page we have discovered the error.

Farming Venture Succeeds in Spite Of Dry Weather

Two Bassano Business Men Have Fair Yield for Year of Little Rainfall

M. R. Milroy and Roy Smith, two Bassano business men both of whom ventured into the farming game when they bought land north of Bassano last year, are meeting with success in spite of the handicap of growing their first crop in a dry year.

These two men purchased non-irrigated land about three miles north of Bassano. M. R. Milroy has 450 acres of wheat on land that was broken last year, and he expects to start cutting the crop Friday of this week. C. Brown will cut the crop with a combine. Mr. Milroy hopes to get a yield of about 12 bushels to the acre.

Roy Smith engaged Albert Olson, of Hussar, to cut his wheat, about 300 acres. The work started last Monday, and it is estimated the grain is yielding about 10 bushels to the acre.

McKee's New Store Nearly Completed

The new men's wear department of McKee's store is now nearly finished and Mr. McKee announces that the store will be occupied and open for business the first of next week. The painters and decorators are putting the finishing touches on the interior of the new quarters, and the stock will be transferred without delay. The new premises present a very attractive appearance. Entrance is gained from the street as well as through the rear of the grocery department. The building of the new men's wear store is a consolidation of the three departments of McKee's Stores, and the proprietor is very well pleased with the result.

Try It

A local student of music has figured out a song for every occasion as follows:

"While walking the floor with the

baby—"Silent Night, Silent Night."

While peddling an onion—"Why

Should I Cry Over You."

While sampling your wife's biscuits—"Rock of Ages."

While tuning in on the radio—"Silent Night."

When borrowing from a friend—"Then You'll Remember Me."

While looking into a gas tank with a lighted match—"When I Am Gone You Will Soon Forget."

When you can't get central—"Somewhere a Voice is Calling."

When your wife hasn't spoken to you for a week—"Old Pal, Why Don't You Answer Me?"

Announcement

H. D. BACON wishes to announce to the people of Bassano and district that he has taken the agency for the Patmore Nurseries, of Brandon, Manitoba.

"Our goods are the best, and our prices are the lowest in Western Canada today. We have a wonderful catalogue; ask to see it. Everything from Bulbs to Apple Trees. "Full planting is strongly recommended for the west, so order your trees and plants early. Goods shipped in first class condition."

For information, a postcard will bring it to you, or phone 125, Bassano.
